

## TRIP TIPS

# Electricity

### Are you aware of?

The electric shaver, alarm clock, hair dryer, flat irons, curling irons, this trip is fine, it is still necessary that they work.

There are in the world twelve different sizes of sockets. Two or three connectors, flat or round shapes ...

Remember that depending on your country of destination, the voltage and current frequency will be different from us. In addition to the proper jack, do not forget the power adapter.

A very useful site to determine the type of electrical outlets (click the type indicated for each country, you will reach a level of decision in question)  
Rating: <http://kropla.com/electric2.htm>.

### Our tip :

Multi-adapters are sold in supermarkets and other stores, do not hesitate to get one for all your travels.
